## SONGS OF OLD SWEETLY SUNG.

Melody of Early California Days Still Thrills.

Local Society Cherishes the Spanish Compositions.

Review of First Few Months' Work Last Night.

An interested audience listened last night to a revival of the harmonious folk songs of Alta California of old—the songs that were familiar to the hearthside and the patio in the days of the untroubled life and the guitar, fifty and sixty years ago.  
Unity Church was well filled with persons who went to hear a practical review of the first few months' work of the Southwest Society of the Archaeological Institute of America. The society's initial endeavors in the local field have been directed toward gathering and preserving, photographically, the fast-disappearing Spanish folk songs of California, which were representative of the entire Spanish Southwest, and last night's entertainment consisted chiefly of the rendering of these extremely musical and picturesque descriptive compositions in the original, by the descendants of the people among whom they originated. Selections on the program were also given to illustrate the manner adopted by the society to preserve them.  
In the absence of the president, J. S. Slauson, Gen. H. G. Otis, first vice-president, presided. The musicians were the Misses Rosa and Luisa Villa, Manuela and Mercedes Garcia, Maria Mears and Rosendo Uruchurtu, and an American air, "The Cricket on the Hearth," on a unique musical instrument of his invention, known as a roscando. The young man, although totally blind, is master of almost every musical instrument known, and his roscando playing is peculiarly sympathetic. Charles F. Lummis made opening remarks, briefly outlining the purpose of the society.  
Referring to the subject of the evening, he said:  
"We are often led to wonder why the songs of today are not so satisfying, as those of the past. The reason is that the songs of today are made to suit the ears of the people, and are not the spontaneous outbursts of human emotion. Sixty years ago in California the songs that were sung by the people as a matter of every day life were not made by carpenters—they originated by the fire, and the melody, simply had to sing, or 'burst'."  
Gen. Otis, in introducing the program, characterized the work of the Southwest Society as important, useful and interesting. "The history of any nation," he said, "cannot be properly written unless we begin at the beginning."  
The programme in full was as follows: "La Estudiantina," with mandolin and guitar accompaniment; chorus, "La Brilla en el Oriente," duet, "Lejos de Ella," Manuela and Mercedes Garcia; chorus, "Nina que Viatus de Luto," duet, "Guadalupe Flor," photograph record of Tigua Indian ceremonial song, with tombs; chorus, "El Capotín," duet, "Pepe," Manuela and Mercedes Garcia; solo, "Crick on the Hearth," Señor Uruchurtu, on roscando; photograph record, "La Mayor-dona," chorus, "La Barquillera," solo, "La Vez Primera," Miss Mears; duet, "La Brisa," Luisa and Rosa Villa; chorus, "Adios, Adios," duet, "La Hamara," Misses Garcia and Villa.  
So enthusiastic was the audience over the patetically sweet rendering of "La Golondrina," by the blind musician on his primitive looking, but poignant one-stringed instrument, that he was compelled to repeat it at the end of the programme. The swinging rhythm and plaintive humor of "El Capotín," also called forth an imperious encore.  
The photograph record of the sacred Tigua Indian ceremonial song is an especially valuable acquisition of the society, and created much interest. Mr. Lummis explained that when he first knew the Tigua people in New Mexico it would have been impossible for any white man even to have heard the ceremonial song, as the Indians would induce one of the aboriginal singers to chant it into the weirdly modern phonograph, yet, in a few years more, such ethnologically valuable bits will have passed away forever.

### UNITED BRETHREN'S SPECIAL.

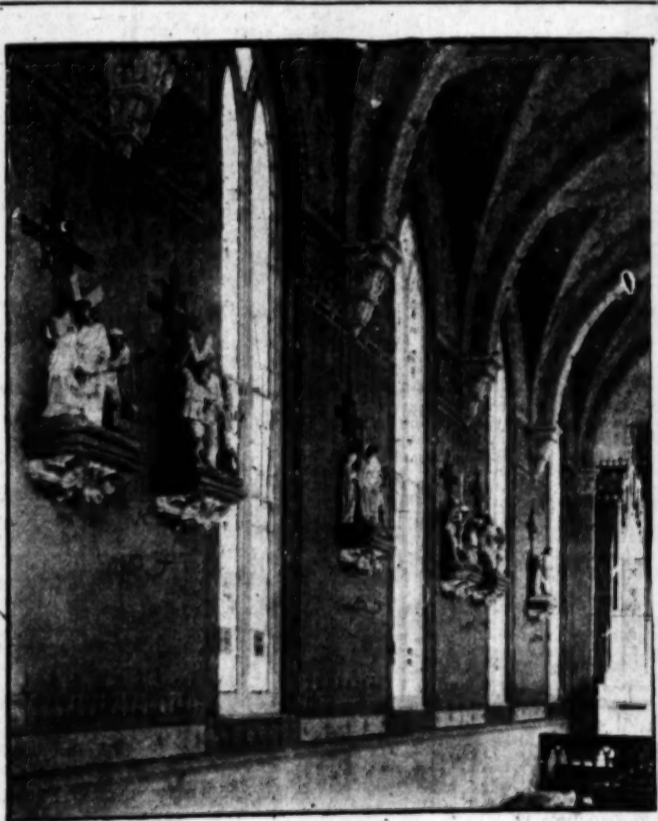

Elder D. L. Miller will open a series of evening services to be held daily at the United Brethren Church on Channing street, near East Ninth street, beginning tomorrow.

## BEAUTIFUL STATUES ON CHURCH'S WALLS.

JUST one year ago yesterday the workmen erected scaffolding within the Church of the Sacred Heart, at the corner of South Sichel and Baldwin streets, on the East side, and the task was begun of transforming the bare and blank walls of the interior into a gallery of beautiful statues.

Some minor details to complete the whole interior stands forth as a joy to the lover of the beautiful and an inspiration to the worshippers before the altars.

The general effect is Gothic, with some Renaissance features. The former high and unsightly sweep of pitched ceiling, rising sheer to the cone of the roof, has been removed by the fitting in of a series of seven apostles, in colors, and in the sanctuary panels on either side wall, one containing a scene of "Christ Blessing the Children," and the other "The Sermon on the Mount." The baptistry has been illuminated with a beautiful cathedral-glass window, the memorial for James Donovan, and representing Jesus baptizing John the Baptist.  
But the fresco work, while notable in itself, is by no means the extent of the improvements in the Church of the Sacred Heart.

STATIONS OF THE CROSS—MURAL DECORATIONS AT CHURCH OF SACRED HEART.

graceful arches with Gothic centers and Renaissance sides. These arches do not rest on pillars, but rest suspended from the ceiling, and at their termination are illuminated with clusters of electric-light bulbs. The arches run down fourteen feet from the roof, and have a sweep of thirty-two feet, and a drop of eighteen feet to the lower ends of the semicircles.  
The beautiful fresco work has been done by R. Volkmann, a Los Angeles artist, and has been visited by many admirers during the course of the work. It is said by those who are competent judges to be one of the handsomest interior decorations on the Southern Coast.

The general tone is light, but warm and restful to the eye. The lighter shades of terra and brown and yellow form the basic colors, and with these are harmoniously blended light blues and suggestions of red in its various shades, while large quantities of gold leaf have been used in all portions of the church.  
Over the high Gothic windows appear the medallions of the twelve apostles, known, and his roscando playing is peculiarly sympathetic. Charles F. Lummis made opening remarks, briefly outlining the purpose of the society.  
Referring to the subject of the evening, he said:  
"We are often led to wonder why the songs of today are not so satisfying, as those of the past. ## GAMBLERS GO ON WARPATH.

Cut-throat Game Threatened to Close All Joints.

Police Raid a Place, Others Run Wide Open.

Black and Hoffman Rooms Going Full Blast.

A crap game in the rear of Ella Cohn's cigar store, No. 117 South Spring street, was raided yesterday afternoon by Capt. Auble and several patrolmen, and six persons arrested. The prisoners gave the names of J. Moore, A. Parker, H. Lewis, B. H. Sears, Sam Blake and Clyde Davis. Moore was charged with conducting the game, and \$200 cash bail was demanded. The others were released on \$50 bail each. They will be tried in the Police Court this afternoon.

The raid was a simple matter, but it has caused more of a stir among the sporting class than anything in a long time. Two weeks ago the same crap game was in operation, and in obedience to orders from the police the place was closed. Thursday night it was reopened. Those interested in the game asserted many times last night that they would not have reopened but for the fact that they were told the matter had been "fixed" with the authorities. On receiving this information, they say from a source which made them positive it was correct, they again began playing.

When Capt. Auble appeared with his men there was a vigorous protest against the raid, but he refused to be deterred from his duty by any previous arrangement or agreement made or alleged to have been made by others. He knew nothing of any "fixing," and without hesitation he broke open a door and raided the place, seizing all the paraphernalia and taking it with his prisoners to the Police Station.

This raid may be the initial step in a general crusade against gambling, for it is a fact known to officials in the police department that the game broken up is one of the least important of several in operation in Los Angeles every day. There is a handsomely fitted gambling-room on the second floor of No. 119 1/2 West First street, in which "Col." F. D. Black is financially interested. This game was in operation last night, and has been almost daily for many weeks. At 9 o'clock last night there were nearly a dozen players in the place. There were two roulette wheels, a "Klondike" and a crap game there. There is also a faro lay-out, but that was not in use at the hour mentioned. These there last night were playing craps and roulette. No questions were asked those who tried to enter, although some of those admitted were known to him—but not all.

There was a game in operation last night on the second floor of the Hoffman Café, South Spring street, near the Hollenbeck Hotel. This game is conducted by Felton & Lynch, well-known gamblers. They have games of faro, craps, roulette and other gambling games. The fact that these games are in operation has been reported to the police, but no raids have been made. It being stated that it has not been possible to secure evidence sufficient to convict the players or owners. It is positively known that a number of well-known citizens patronize this resort.

The notorious Ignacio Belderrain is said to be interested in another gambling outfit, but the location of it is not known generally, and as compared with the other two places mentioned his game is small potatoes.

### FAVORITISM, THEY SAY.

"I am a gambler, and make my living that way, but I like a square deal from everybody," said a well-known dealer last night. "There is something wrong about the way things are doing things in this town. I would like to see Los Angeles a wide-open town, but if it is not to be so, I do not understand why the games owned by Black and those of Felton & Lynch should be permitted to run while the others are raided every time they open. If I want all the games closed, all right, I can stand for that, but if they let some of them run almost wide open why do they draw the line on others? This matter has got to be settled. Somebody is getting a rake-off, and we think we know who it is. If the crap game at No. 117 South Spring street is to remain closed, we propose to see that the others are closed also. I don't want them raided, but if they can do business I want the same privilege from the authorities."

This sentiment expressed by half a dozen known gamblers last night, and "down the line" where members of the sporting fraternity do congregate, there were open threats of a cut-throat war which will result either in the closing of all the games or in permitting some of the smaller ones to do business. Those in position to know asserted that the Black game at No. 119 1/2 West First street is a "brace" game—that is, a game in which the dealer can make it impossible for the player to win.  
"This is the understanding that those fellows who are running have," said one of the disgruntled dealers. "If a sucker loses his money and makes 'holer,' it is understood that his money must be paid back to him. If he continues to make a row he is to be 'fixed' with coin, if possible. If the newspapers get onto the games they are to be closed for a time. Pull or no pull, if the orders came from the Police Commissioners or the Chief to close any game, that game would close. We know we can't take chances with public sentiment and then violate the law, but we are not going to stop our head-playing of favorites, even if one of the favorites is 'Col. F. D. Black.'"

### NOVEL AUTO RUN.

B. H. Hook, son of W. S. Hook, made a midnight run in his automobile to Elsinore. With his chauffeur, Arthur Larsen, he left this city shortly before 1 o'clock Thursday morning and arrived at Elsinore in time for breakfast at 4 o'clock. He encountered no obstacle in the way and believed that better time can be made with a machine at night than in the daytime. He left this city lights showed the road far ahead and the sleeping town of the San Gabriel Valley.

## SWEET SIXTEEN'S THREE BIRTHDAYS.

SHE is 16 years old—Miss Jennie Carlota Edwards—but she is only just going to celebrate her third birthday. If there be any girls about town with birthdays to spare this maid would like to relieve them of the surplus. On Monday evening she will have formal recognition of the anniversary at the home of her parents, Dr. and Mrs. David E. Edwards, at No. 900 Beacon street.  
Birthday anniversaries generally come once a year, but this young miss had to wait eight years to celebrate. She was born February 23, 1892. She

be in green and yellow, orange blossoms and the golden fruit being used with amilax, which will be arranged to form a canopy against which the oranges will appear at intervals peering through the massed greenery. The dining-room will be in scarlet carnations and asparagus plumosum. The table is to be illuminated with silver candelabra. In the center will be a gorgeous birthday cake adorned with the light of sixteen tiny tapers.  
Original amusements have been planned for the party. Mrs. Edwards and her two daughters have cleverly devised a number of games for the guests. When supper is announced the

has had two birthdays, one in 1892 and the other in 1896. The year 1892 was a leap year, but it was also a centennial year, not being divisible by 400, and therefore February had but twenty-eight days, and so poor Jennie was out another birthday.

The affair for Miss Jennie Monday evening, promised to be a brilliant one. There are about twenty-five invitations out. Mrs. Edwards, assisted by Mrs. Z. L. Parmelee, Mrs. Mho Baker and Mrs. F. W. Force, will receive the young guests. The reception hall is to

youngsters will choose their partners by shooting hearts with names on them. The feast will be a progressive event in courses.

Miss Jennie has been industriously looking for some other girl who has a companion in this misery of scant birthdays. She has through The Times discovered a young lady in Kentucky who will have a birthday on the same date. She has been corresponding with her new-made friend, who is also to celebrate her third birthday Monday. Miss Jennie is a picture of glowing health in a dainty setting of golden hair.

## COLLEGE BOYS IN CONTEST.

PROHIBITION THE THEME OF ORATORICAL CONTEST.

First Annual Event of the Inter-collegiate Prohibition Association of Southern California Occidental College With Baxata up, Captures First Honors.

To Occidental College was given the first honors in the annual oratorical contest of the Intercollegiate Prohibition Association of Southern California, held last evening at the Simpson Auditorium.  
Charles F. Baxata was the successful spellbinder, and Charles F. Seymour of the University of Southern California a close second, capturing the auxiliary prize.

Prohibition was the theme of the contest and aside from the two prize winners there were representatives from Pomona and Whittier colleges. Baxata (Occidental) had for his subject "Patriotism and Prohibition." He pictured historical scenes of patriotism having for their incentive the common good, and made a present-day application, emphasizing need for equally heroic action.  
Charles F. Seymour (U.S.C.) outlined "Present Duty," declaring the liquor traffic to be in politics, and said the speaker, "in politics we must meet the issue." George E. Hume (Pomona) pleaded for a substitute for the saloon, arguing from "A Practical Solution" subject, E. B. Heaton (Whittier) discussed upon "The Prohibition of Victory," was optimistic and insisted that each year witnessed an evolution of sentiment in favor of prohibition.  
Responsible for this intercollegiate contest, A. C. Miller, national traveling secretary of the association, had placed in a brief address made full explanation of the aims and objects of the organization. He admitted that prohibition was to use the college vocabulary, a long-haired proposition, but at the present time the clergy had no monopoly on frowning looks. This is a long-haired proposition indeed, said the secretary, "but the football teams of the colleges are furnishing the long hair and much of the force that is entering into the present contest."

The judges in the contest were as follows: On thought and composition, A. L. Hamilton, W. O. Morton, M. B. Jones, on delivery, Judge M. T. Allen, Judge C. D. Wilbur, the Rev. R. A. MacLaren, D.D. The first prize, which will include a gold medal, is to be presented to the winner round-trip transportation to Portland, Or., and \$50 in cash. The second prize was \$20 in cash.  
Those contesting last evening were the winners in the colleges (the respective). Last evening's winner is entitled to enter the interstate contest to be held at Portland, Or., May 22. The man that then captures the prize is eligible for the national try-out to be held later.  
During the evening the Glee Club of the University of Southern California rendered several selections, and the fellows of each contestant of the four colleges "whooped it up" in enthusiastic college phraseology.

### "COURAGE" BY MURPHY.

An Irish version of "Courage" will be presented by Francis Murphy at Blanchard Hall tomorrow evening. J. W. Eccleston will direct the music, which will include solos by Phineas Neares, an operatic tenor; J. Wheaton Leonard, baritone, and Miss Stella Callender.

## FLOUR GOES UP AND UP.

Advance of Forty Cents a Barrel Due to War in Far East.

"Watch the 'stacks' at the lunch counters grow smaller. Flour jumped 20 cents a barrel yesterday, making an advance of 40 cents in one week. 'That is pretty stiff,' said a grocery jobber. 'We expected a raise, but nothing like that. It is really too sudden, and no one can say when the peg will jump another notch.'  
"If the flour continues to go up it will surely make itself felt in the bakery business, and smaller loaves will be passed over the counter. The sharp advance is entirely due to the war in the Far East, which has created much of a heavy demand that grain may be found short all over the world."

# THE PUBLIC SERVICE OFFICIAL BOOKINGS.

## SUMMARY OF THE DAY.

Acting Mayor Bowen sent to the Council yesterday his message vetoing the proposed library and jail bond issues.

The Board of Public Works decided to advertise a franchise granting the privilege to put cans for waste along the sidewalks.

H. A. Moore got himself into a lot of trouble by kidnapping his baby from the mother. This morning he will be called to account before Judge York.

After being married and living together only one day, Mrs. Josephine Julius and her husband separated. Yesterday the wife was in court seeking money she claims she advanced during the courtship days.

Mrs. Barbara Burgher was before Judge York yesterday to testify against her husband, upon his citation to show why he had not paid her alimony. He made his showing and possibly the case will be reopened.

AT THE CITY HALL.

**BOWEN VETOES BOND ISSUES.**

OUTLINES REASONS IN MESSAGE TO THE COUNCIL.

Acting Mayor's Approval Necessary to Proceedings, and Measures Cannot be Passed Over Him—Knock-Out Blow for Library and Jail Bonds.

Acting Mayor Bowen filed his first veto message with the City Clerk yesterday afternoon.

With the message he returned without his approval the ordinance and resolutions providing for the \$350,000 library bonds and the \$50,000 jail bonds.

The action of the Acting Mayor effectively disposes of the library and jail bond issues as far as the present proceedings are concerned. By the provisions of the California bond law the signature of the Chief Executive is essential to the passage of bond ordinances and resolutions, and the Council is powerless to pass them over.

This point of law was not known to members of the Council yesterday, and, after it became known that Acting Mayor Bowen had filed his veto message, conferences were held with a view to passing the bond measure despite his objections.

If nothing but an ordinance was required to initiate the bond proceedings there would be a conflict between the provisions of the State law and the charter, and the latter might be held to govern. The State bond law, however, requires the passage of a resolution by two-thirds of the members of the legislative body and the approval of this measure by the Chief Executive, while the charter says nothing about a resolution. Such being the case, Acting Mayor Bowen holds the balance of power and not only can he prevent the Council from determining upon the proposed bond issues, but he can prevent the holding of a bond election unless in a manner and at a time acceptable to him. Section 1 of an act of the Legislature passed in 1901, under which bond proceedings are brought, provides as follows:

"Whenever the legislative branch of any city, town or municipal corporation shall, by resolution passed by vote of two-thirds of all its members, and approved by the executive of the municipality, determine that the public interest and necessity demands the acquisition, construction or completion of any municipal improvement, the cost of which will be too great to be paid out of the ordinary annual revenue of the municipality, it may at any subsequent meeting of the board, by a vote of two-thirds of all its members, and also approved by the Chief Executive, call a special election, and submit to the voters of the city the proposition of incurring a debt for the purpose set forth in said resolution."

The bond situation at the City Hall has a tinge of the dramatic. When it was first proposed to issue library and jail bonds, Acting Mayor Bowen appeared before the Council in committee of the whole and spoke earnestly against submitting the proposed issues. He argued that the city was carrying quite a load of bonds, that it was unwise to issue any more bonds than necessary while there was an unsold issue on the market, that the Council would be breaking faith with the bankers who took the \$1,000,000 sewer bonds in that it had been agreed that the bankers were to be paid out of the big issue before any considerable quantity of bonds, other than water bonds, were proposed. The Council turned down the appeal and passed the resolution and ordinance for the library bonds by a vote of 8 to 2. Kern being ill and absent, and Todd voting in the negative. Todd joined the other six on the jail-bond ordinance, which passed by seven votes. Under the charter seven votes is sufficient to pass an ordinance over the Mayor's veto and the Councilmen informed Bowen that they would pass the measures over his objections with the aid of Kern's vote.

Just here the State law stepped in, giving the Acting Mayor the right to veto the ordinance. The Mayor, however, at the expense of his colleagues. This is the first instance in recent years where the President of the Council, in the absence of the Mayor, has been able to turn the tables on the body over which he usually presides. In his message to the Council Acting Mayor Bowen states his objections to the library and jail bonds and tells why he favors the issue for the Water Side water plant, the impounding reservoir and the detention hospital. These issues, it is understood, are not opposed by the bankers who purchased the sewer bonds. The directors of the water company have agreed to take the \$37,500 issue in payment for the plant, and the other issues are not large enough to cause the bankers any special concern.

It is customary for messages to the Council to be sent to the Mayor by the provision of law whereby an ordinance becomes effective after ten days unless the Mayor vetoes it. Acting Mayor Bowen was forced to file his message yesterday. The result will be that the present bond proceedings entirely and the advocates of a library and jail cannot accomplish anything until Mayor Snyder's return from Mexico. Should Mayor Snyder favor the bonds new proceedings might then be commenced.

It is not probable, however, that it would be possible to pass the ordinance and resolutions in time to have the issues submitted at the coming bond election which is to be held about April 1. The agreement with the Water Side Water Company provides that the city must purchase the plant within four months from its date. Some time has already elapsed, the publication of bond proceedings requires several

weeks, and due notice of the election must be given.

Altogether it is evident that Acting Mayor Bowen holds the key to the situation. His message is as follows:

THE MESSAGE.

To the Honorable City Council of the City of Los Angeles—Gentlemen: I herewith return to you without my approval, a resolution declaring that the public necessity requires the acquisition of a public library building, and an ordinance providing for a bond issue in the amount of \$350,000 for securing a site and constructing the building.

I also return without my approval a resolution declaring the need for additional space for the City Jail building and site in the amount of \$50,000 for securing a site and constructing the building.

The resolutions and ordinances are returned to you because I do not believe the submission of these proposed bond issues to the voters at this time is compatible with the dictates of sound public policy.

Our bonded indebtedness is now about \$1,000,000. In addition there is a standing and unaided issue of \$400,000 strain drain bonds. Your honorable body, through the action of the Chief Executive, has determined to submit to the voters an issue of \$375,000 for the acquisition of the West Side Water plant, and an issue of \$50,000 for the construction of an impounding reservoir, and an issue of \$50,000 for the construction of a detention hospital. Should all these issues be voted and sold, together with the \$1,000,000 sewer bonds, the aggregate bonded indebtedness of the city would be \$2,000,000.

As your honorable body is aware, the purchase of the West Side plant will place all water consumption in the city under the municipal system, and will result in uniform water rates to all citizens, as well as direct to the benefit of the city the considerable revenues from the West Side plant. Under such circumstances it is of the highest importance that the voters be given an opportunity to express themselves as to the wisdom of the proposed issues.

It is also known to you that the water department has in contemplation the construction of a large impounding reservoir in the northwest section of the city to conserve the water flow of the river for use in the summer months. The importance of this project is self-evident. Last summer, when the water in all the park lakes was at a low stage, the city flowers, planted and cultivated at considerable expense, suffered for want of water. It will be several years before the accumulation of money from the ordinary revenues of the water plant can be added to the city's funds.

The interest and sinking fund on both of these issues will be paid out of the will, in the event the bonds are voted, be paid from the water revenues and will constitute a heavy burden on the rate, which, largely because of bond issues was higher this year than for several years.

In approving the ordinance providing for a bond issue of \$50,000 for a detention hospital, I am influenced by the fact that a large number of tourists visit the city every year, and accommodations should be provided for those who are afflicted with contagious diseases. Too much attention cannot be paid to preserving the health of our citizens, and it is the judgment of the Board of Health that a detention hospital is essential for this purpose. Under the present system of quarantining cases of contagious diseases in isolated cottages and employing guards to enforce quarantine, thousands of dollars more than would be required to maintain the hospital, and the city would be a more healthful place.

I believe that the detention hospital would pay for itself in a few years and would be a great improvement to the city. The proposed issue of \$50,000 for a library building and site, is not at all satisfactory to me. It is known to you that the building in Central Park, an opposition apparently strong enough to remove the site from consideration. The proposed issue is not large enough to buy a suitable site and erect a building that would be a credit to the city.

There are many strong objections to the building of the library in Central Park. After ample consideration, it does not appear to me that the issue, as proposed, is a wise one. The proposed issue, no matter how the money was expended, in addition to the submission of the library bonds, at this time, would be a heavy burden on the city. The other bond issues, the sanction of which at the polls is much more important to the city, should be built for the future as well as the present, and constructed in keeping with modern architectural ideas.

It is my opinion that the sum proposed would not be sufficient to build a building of the size and character that the rapid growth and bright prospects of the city demand. I believe it would be wiser to wait until a larger building now, which in a few years, would provide adequate to the needs of the city. A vote on the issue at this time, would be a waste of money, and should be voted at the present time to buy land adjacent to the City Jail, where the future site for the jail purposes is somewhat remote.

In conclusion, I wish to say, as I stated before you when you were in committee of the whole, that to submit bond issues at this time, except for the water bonds, is unwise, and that the Council should wait until the city is in a position to submit the library and jail bonds with the local bankers who came to our assistance in time of need. The great necessity for water bonds, and the long and unsuccessful struggle to market them, is a lesson to you. The bankers of this city, largely from civic pride, stepped in at the eleventh hour and took the securities just as we were on the point of cancelling the issue. At that time we gave them the assurance that if they bought the bonds, we would give them time to market them, before submitting issues of bonds, other than water bonds, to the voters. We should rigidly keep our promise in all fiscal transactions made on behalf of the city, and for this reason, as well as for the others enumerated, I believe it is inconsistent with public policy for me to sanction the proposed resolutions calling for library and jail bonds.

CANS FOR WASTE.

ITEMS OF PUBLIC WORK.

Richard B. Stueben, president of the Board of Public Works, yesterday seeking a franchise granting the right to put cans for waste along the sidewalks and cover them with advertising matter. Mr. Stueben said that the city was providing with such cans and that it was time to make some metropolitan improvements.

Chairman Nofziger and Councilman Moore, who had been in the city for some time, were provided with such cans and that it was time to make some metropolitan improvements.

thirty years. Davenport violently opposed the advertisement, but the franchise for any term could not be placed by Nofziger, with whom he usually votes. Davenport promises to put a motion picture and show the rafters of the Council Chamber next Monday.

The proposition endorsed by a majority of the board provides that the cans must be made of iron, covered with aluminum paint, and be similar to mail boxes used for papers and of about the same size. All advertisements placed on the boxes must be of uniform color. Medical advertisements are barred. A cash must be offered for the privilege and also a stated annual rental for each box or can. Mr. Busted also agrees to put the street name on the top of the can. The cans will be used as receptacles for waste paper, fruit peelings, sweepings and similar refuse. Chairman Nofziger thought the cans would be preferable to gutters filled with paper and trash.

The board also discussed the abandonment of Scott and Liberty streets in the Second Ward. A delegation of the property owners, headed by L. C. Brand on behalf of the Los Angeles and Glendale Electric Railway Company, asked the board to abandon the streets, which are a boulevard along its tracks for the entire distance to Glendale, which is about 1.5 miles. The board is preparing to resolve the property so as to have it face on the proposed boulevard. Some time ago the board agreed to abandon the streets, but it is the disposition of the Council to vote down the proposition.

The two lots purchased at Lake Railroad Company for a spur track across Avenue 36 was denied on technical grounds. No further action was taken in the divorce proceedings. THE BURGER DIVORCE.

Mrs. Barber X. Burger was before Judge York yesterday to bring her husband to task for not paying alimony. The court postponed the hearing until the next day, and ordered her to pay the alimony.

SAWTELLE. FOR FIRE PROTECTION.

SAWTELLE, Feb. 26.—Yesterday evening another meeting of about twenty-five citizens was held at Laird's Hall to discuss the question of fire protection. The following committee was appointed to take the matter under consideration and report at a meeting to be held next Thursday evening: H. Langdon, chairman; H. Laird, Corwin Phelps, W. B. B. Tracy, A. H. Wyant, C. G. Tracy, E. Grinton, J. Bowers. Several methods of fire protection were discussed and representatives of the various extinguishers were present and given a hearing. It was also suggested that the tanks of H. K. Laird, near Fourth street, be raised and a larger engine and pump attached, and a main line laid therefrom along Fourth street, with fire hydrants at convenient intervals, and that a stock company be formed to forward this plan.

SAN DIMAS. NOTES AND PERSONALS.

SAN DIMAS, Feb. 26.—The meeting of the San Dimas Heights Horticultural Club next Tuesday night will be attended by Prof. A. J. Cook of Claremont, who will speak on the subject, "A Notes Orchard." The question of High School bonds will also be discussed.

Library Hall was crowded last night at the San Dimas wedding. Over forty children between 3 and 7 years of age took part in the ceremonies. The bride was Mary Walker and the groom was Tommie Hawley. The proceedings were under the direction of Miss Eva Castle.

### LONG BEACH MAN DISAPPEARS.

NO TRACE OF M. W. LEWIS WHO LEFT HOME WEDNESDAY.

Distressed Wife Goes to Los Angeles to Search for Him—Own Home Destroyed by Fire During Absence of Family.

Long Beach, Feb. 26.—M. W. Lewis is this city who mysteriously disappeared, has been absent from his home since Wednesday without sending any word to his wife, and no trace of him can be found.

Wednesday night Lewis left his home, 331 Golden avenue, without any explanation as to where he was going. Mrs. Lewis did not worry over his absence, thinking he had possibly gone to Los Angeles on business. He did not return Thursday, and no word came from him.

Today Mrs. Lewis, who is greatly distressed by reason of the strange absence of her husband, went to Los Angeles to look for him. She is unable to indicate that he intended to remain away so long, nor is there any reason to believe he has forsaken his home here. His wife is at a loss to account for his prolonged absence, and will enlist the services of friends in making thorough search for her husband.

FIRE WRECKS OWEN HOME.

The residence of D. M. Owen, California avenue and Hamilton street, was burned at a late hour last night. The family was away at the time. The fire is supposed to have been caused by the explosion of a lamp which had been left burning. The report that the little Owen girl had perished in the flames was incorrect. Nothing was saved except the furniture. The furniture, bedding and clothing of the family was a complete loss. The report that \$500 in cash had been buried was a mistake. A draft for that amount was destroyed. The loss is \$1000, with an insurance of \$300.

BEACH TOWN NOTES.

D. Little will build a six-room residence on Pacific avenue between Eighth and Ninth streets.

Fifteen thousand yards of earth have been hauled into First street, between Pine and American avenues, and located avenue between Ocean avenue and Second street, to bring the streets nearest to a grade.

The Indian basket-ball team of Riverside, which is called the Long Beach team, will probably be accepted.

Miss Adelaide Ludden and Ivy Warden were married at the home of the bride, Mrs. and Mr. L. L. Ludden.

Every member of the "Dinger" Club was present at the annual meeting of the club last night. After the spread City Clerk Julian, who gave the banquet, was presented with a silver trophy and a cut-glass berry dish with spoons and a cut-glass berry dish with spoons.

A ball game is scheduled for Saturday at 2:30 p.m. on the campus between the Long Beach High School and the Los Angeles Military Club.

GLENDALF. GLENDALE, Feb. 26.—Three carloads of poles for the electric railway line arrived at Tropic Thursday and will be erected the coming week.

C. C. Broadhead, who has been in charge of the line, is a new arrival, being located at No. 20 Hill street.

The line is finished between Temple street and the Arcade Depot, after which they will give transfer to the Tracton lines throughout the city.

BUILDING IMPROVEMENTS.

Dr. Bedorith is erecting a modern cottage on the corner of Second street.

and Vedugo roads and Frank Bauer has let the contract for an eight-room house to be erected on his Third-street property, and Mr. Jones will erect a substantial home on a lot recently purchased in the Hotel tract.

The Home Telephone Company have erected poles along San Fernando road as far as Burbank on their Santa Barbara line, and arrangements are being made for extensions of their system through Glendale, Tropic, Eagle Rock and Burbank.

MONROVIA. FOUNTAIN DEDICATED.

MONROVIA, Feb. 26.—The Monrovia-Duarte Farmers' Club has had erected at Myrtle and Orange avenues a drinking fountain that can be used by man, horse or dog. It is built of cobble stones. At 2 o'clock this afternoon the fountain was presented to the city and dedicated to public use. The exercises opened by invocation by Rev. J. C. Elliott. In an appropriate address Mrs. M. H. Chamberlain, on behalf of the Fountain Committee, made the presentation to the Wednesday was read by W. A. Walker, acting president of the Board of Trustees. The exercises were closed with a vocal solo by the H. R. Beames, entitled "Let a Fountain."

DOG-GONE SHAME.

Joseph Livernash, a sewing machine agent of this city, while visiting a house near El Monte, was badly bitten by a vicious dog.

F. H. Larabee is building a five-room house on Chestnut street, between Myrtle and Primrose.

Serafino Franc has let the contract for a cottage on Chestnut street.

CLAREMONT. WILL BUILD BUSINESS BLOCK.

CLAREMONT, Feb. 26.—C. C. Johnson &amp; Co. yesterday completed the largest sale of Claremont property made in many months. A lot on the northeast corner of Harvard avenue and First street, 125 feet on First and 250 feet on Harvard, was bought by Fred B. Clark, a banker of Monrovia, Kan. He will soon build a two-story brick business block. Johnson &amp; Co. also sold a residence lot, 50 feet frontage on Harvard avenue between Fourth and Fifth streets, to a local resident. His plans are to build a home in the lot. He will bring his family here from Kansas.

The Zoology Seminar met last night to consider the subject of animal parasites, or animals that live on other animals. The subject was presented in general form by Prof. Baker and papers were given by Messrs. Reed, Pease, Harrows and Jens, and by the Misses McNair, Richmond and Eldridge.

Willis McClean, of Pomona College, who is now in the city, is a student of the University of California at Berkeley.

Manhattan, Kan., has been accepted principal of the new men's dormitory.

SAN PEDRO. TO PROTECT ANIMALS.

SAN PEDRO, Feb. 26.—A movement is on foot to organize a Society for the Prevention of Cruelty to Animals in San Pedro. Ways and means were discussed at a meeting of the cheerful and closing with a night session.

Mrs. W. A. Weldon reported that she had met with a case of animal cruelty. She said that a woman had been seen to throw a dog into the water. She said that she had seen the dog in the water and that it was struggling.

**Children's \$2.00  
Calf Shoes at \$1.45.**

It is all right to use kid shoes for dress wear, but for the rough, rugged little tots, both boys and girls, there is not anything which will give quite the service of a calfskin shoe. This particular line is made with spring heels, and in sizes 11 to 2. They are comfortable shapes, won't cramp or pinch, and are offered in our basement Saturday, at per pair.....

**\$1.45****Hamburger's****New Spring Styles Men's, Boys' Clothing**

But a small percentage of men have their clothing made to measure by a tailor. For ordinary purposes the to-put on garments are just as good inasmuch as the tailoring of these garments in the last several years reached the perfection mark. One man designs, another cuts, another makes this piece and that piece, but conform to a general idea, and the largest factories turn out nothing but the most fully made goods in the very newest style. This is the kind of clothing the Ham store handles. So whether clothing is wanted for man or boy this is the place to the money; get just as good goods, just as new styles and yet save one fourth or more what you would pay elsewhere.

## WHITE HOUSE IS BURNED

Wisconsin's Capital Building Is Practically Destroyed

Caused by Defective Electric Wiring—Loss Amounts to Nearly a Million Dollars

BY ASSOCIATED PRESS LEASED WIRE TO THE EXPRESS.  
MILWAUKEE, Feb. 27.—The Wisconsin state capitol building was today completely ruined by a fire caused by defective electric wiring. The fire broke out at 10:15 p.m. and spread rapidly, consuming the entire building. The loss is estimated at nearly a million dollars. The building was under construction and was not yet fully completed. The fire caused the death of several people and the destruction of many valuable papers and records. The state government has ordered an investigation into the cause of the fire.

## TRIED TO CRACK A SAFE

BURGULARS BREAK INTO I. T. MARTIN'S STORE

Indications That a Gang of Novices at This Nefarious Business Is at Work Here

Burglars last night broke into the furniture store of I. T. Martin, at 531 South Spring street, and attempted to crack the safe. Entrance was effected through a rear window. Two holes were drilled in the safe door and the combination knob was broken off, but the burglars abandoned the job before getting into the safe, and secured nothing. This is the third attempt at safe robbery in the last two weeks in which the burglars failed to secure any plunder. In the first case, that of a grocery store on South Broadway, the combination knob and one of the hinges from the outside door were broken off. The men had entered the store without tools and the safe was not opened. In the second case, that of the office of the Franklin Oil refinery, the safe was wrecked with sledge hammers, and the contents were stolen. The burglars did not get inside the money box.

## SENTENCE OF MACHEN

Former Postal Official, With Confederates Lorenz and Groff, Given Two Years' Imprisonment

TEN THOUSAND DOLLAR FINE

BY ASSOCIATED PRESS LEASED WIRE TO THE EXPRESS.  
WASHINGTON, Feb. 27.—When the postal cases were called in the criminal court today for the pronouncement of sentence on Machen, Lorenz and Groff, convicted last night, the counsel for the defense moved for a new trial. The motion was overruled as to all of the defendants except Samuel A. Groff, whose motion was left for further and separate consideration. After noting exceptions, the court gave sentence to Machen, Lorenz and Groff, each to two years' imprisonment in the penitentiary and to pay a fine of \$10,000 each. The court decided to make the several counts in the indictment constitute one offense. The case of Samuel A. Groff had not been decided. The beginning of their penitentiary sentence is to date from the time of their arrival at the penitentiary. In ordering the recess, Justice Pritchard said he was satisfied that the verdict of the jury was correct, but he was not certain as to whether he had the power to impose a penalty on more than one count of the indictment, and he would reach a conclusion on this point during recess. There are twelve defendants in the case. The National guard of the state are numbered. The governor was informed while here that the National guard had been ordered to the front. The National guard is now in the front. The National guard is now in the front.

## MYSTIFIED BY JAPANESE

Russians Fear Attacks on Port Arthur Are Merely Feints

Czar's Commanders Decide to Keep Warships in Harbor Under Guns of Fort

BY ASSOCIATED PRESS LEASED WIRE TO THE EXPRESS.  
ST. PETERSBURG, Feb. 27.—In view of the desperate manner in which the Japanese are returning to the attack at Port Arthur, in spite of their repeated repulses, the military authorities here are convinced that their main objective for the present is to cripple hopelessly the Russian fleet in order to secure absolute freedom in the disembarkation of troops. For this reason the Russian commanders are carefully guarding against exposing their ships, keeping them in the harbor under the guns of the fortifications. Doubts exist as to whether the Japanese really design to land near Port Arthur and invest the city. The authorities admit that they are considerably mystified, but the prevailing opinion seems to be that the Japanese will not hazard a landing at this stage of the campaign. It is pointed out that owing to the conformation of the shore, the only suitable landing places near Port Arthur are well within the range of the batteries, and that if a landing is attempted on the northern part of the peninsula, the Japanese transports will be unable to come to land, and that on account of the shelving shore the troops would have to march miles through mud and low water, exposed to a galling off-shore fire.

## BRENT IS NEW PRESIDENT

Well-Known Chicago Capitalist Has Assumed Active Charge of Affairs of the Corporation

W. L. Brent, a capitalist of Chicago, has been elected president of the Merchants' Trust company of this city, and has assumed the active duties of his position. He succeeds Byron Erkensbrecher, who was understood from the first, would retire in favor of one who could devote all his time to the duties of president. Mr. Erkensbrecher becomes vice president under the new arrangement. Mr. Brent has brought his family to this city, which is to be his home henceforth. He is convinced of the bright future of this city, and shows his confidence by his investments. Bids are being received today for the construction of the seven-story office building that is to supersede the T. M. C. A. building in South Broadway bought by the Merchants' Trust company. It is expected that by March 15 the work of raising the old T. M. C. A. building will be begun, and as soon as possible thereafter the erection of the new building will be under way. The Merchants' Trust company, which is incorporated with a capital of \$500,000, will have quarters in the new building.

## DISMISSED THE INDICTMENT

Court Takes Action in Mahoney Case at San Francisco

SAN FRANCISCO, Feb. 27.—On the ground of insufficiency of the indictment, Judge Carroll Cook of the superior court this morning declared void the grand jury indictment against Albert B. Mahoney, ex-county clerk, and ordered the case submitted to the present grand jury. At the same time the judge expressed a wish that the grand jury take an appeal from his decision in order to have a final ruling on a mooted point.

## PROSECUTION LIKELY TO FAIL

German Banker Meyer to Be Released at Berlin, Germany

BERLIN, Feb. 27.—Authorities have decided today a criminal prosecution of Fritz Meyer, the banker who disappeared Feb. 23, leaving liabilities amounting to \$500,000, with assets of \$25,000, and who was arrested yesterday on the outskirts of Berlin, is likely to Americanize the case. Meyer was thunderstruck at the verdict.

## DEFENDANTS SEEMED APPALLED BY VERDICT

Defendants Seemed Appalled by Verdict in the Postoffice Conspiracy Trial

WASHINGTON, Feb. 27.—"Guilty as indicted" was the verdict announced by the jury in the postoffice conspiracy trial soon after 8 o'clock last night, stating at the same time that this was the verdict applied to all four defendants. August E. Machen, late general superintendent of the rural free delivery division; George E. Lorenz of Toledo; Samuel A. Groff and Diller B. Groff of Washington. The jury had been out nine hours. In the dimly-lighted room sat the four defendants, who after the case was given to the jury had been placed in the custody of a United States marshal and confined to the limits of the city hall. Each wore an anxious look and a deathlike silence fell on the small crowd which had been permitted to enter the room as the clerk inquired of the foreman if a verdict had been reached. The jury to a man rose, and as the words "guilty as indicted" fell from the foreman's lips, the defendants and their counsel seemed appalled.

## CHICAGO DAILY WAKE DREZZES

CHICAGO, Feb. 27.—Warnings have been issued to the people of the Middle West states to look out for a severe blizzard that is moving on from the Rocky Mountain region. Little terror, however, is caused, at this season of the year by the approach of mountain storms. The latter generally fade into mild rainstorms or sleet visitations by the time the lake region is reached, in latter February or early March. Snow fell in several lake states Friday, part of today, and the maximum temperature was 22. The weather man thinks the minimum for the next twenty-four hours will be 5 above.

Richard Coleman died today in St. Margaret's hospital, Hammond, Ind. He had been suffering from pneumonia. A snow storm two days ago started to walk from Chicago to the Indiana city and was overcome.

Fifty new locomotives have been ordered by the Santa Fe road from the Baldwin works. Two of these engines are designed to pull 40,000 tons of dead weight on a level grade. The weight of each will be about 280,000 pounds and that of the tender about 250,000 pounds. The other forty locomotives will be of the balanced-compound type, similar in many respects to the French engines. They are designed to attain a speed of eighty miles an hour, and will be used exclusively for passenger trains. Each will weigh about 320,000 pounds, including the tender.

Today there are 5,000 employees of twelve industries either on strike or in lockouts in Chicago. The extension of industry strikes is imminent. Conservative followers of the labor pole is much more important to the city. Bishop Conaty Makes Scholarly Address Before Educators in Public School Service

## RESPONSIBILITY IS HEAVY

Church Prelate Insists on Importance of Religion in Teaching

Bishop Thomas Conaty made a strong address this morning before the city teachers assembled in the high school auditorium. Education ever has been a chief interest with the eminent churchman, and he spoke today from the standpoint of one who has had long experience along this line.

After alluding to the pleasure of meeting those engaged in the work of education, the bishop touched upon the responsibility of the teacher in the life of the people. He said that the teacher is a powerful agent in education, and is the moulding of character and the fitting of life. He discussed his general views on education, and the responsibility of the teacher in the life of the people.

Bishop Conaty spoke of the importance of religion in education as something more than sentiment or vague generalities and asserted that it was the duty of the teacher to instill in the minds of the young the principles of religion and morality.

Personal sympathy and enthusiasm, the speaker said, are qualifications fitting the teacher for his task. He referred to the fitting of the teacher for his work and insisted upon the acquisition of knowledge, the aptness of his mind, and his consecration to the work.

LOS ANGELES COUNTY INVITED TO BIG SHOW

Lewis and Clark Centennial Exposition to Provide Space for Special Display

Henry E. Reed, director of exploitation for the Lewis and Clark centennial, to be held in Portland, Ore., next year, has sent an official invitation to the county of Los Angeles for a special exhibit, either in its own behalf or in connection with other bodies. Municipalities of the county also are invited to participate in the event with exhibits characteristic of resources, industries and progress. The following regulations are cited by Mr. Reed: "Preparing and installing of exhibits will be left to the counties or organizations in whose name or under whose name exhibits are made. They may erect separate buildings, or may install exhibits in the buildings of the state in which the county or organization is located. Space will be provided on the exposition grounds for such buildings and no charge will be made for the use of the same. Plans and specifications shall be submitted to the director general for approval. All collective exhibits made by counties and trade organizations will be permitted to participate in the general competition; they will be both collective and competitive."

## ADMITTS HE IS A FORGER

John McLean Is Arrested for Issuing Spurious Checks Calling for Small Amounts

When John McLean, an elderly laborer who has been hanging about saloons at Second and San Pedro streets several weeks, was arraigned before Justice Chambers this morning on a charge of forgery, he said he did not want an attorney, but would plead guilty at the earliest opportunity. His examination was set for Monday morning.

Officer Story saw McLean take a boy to a room in a lodging house at Second and San Pedro streets yesterday afternoon. He did not like the old man's actions, and followed him to the room, where he saw enough to justify him in placing McLean under arrest.

Afterward, when he went back to his beat, a saloon keeper told Story McLean had passed a worthless check upon him. The check called for \$40, and he had advanced \$40 on it, when he discovered it was bogus. Story then went back to the station, and found that Detective Jones had been looking for an old man who had passed a worthless check on him. McLean was taken to the detectives' office and confessed he was the man the officer was looking for.

McLean said he did not know how many worthless checks he had forged, but it is known that there are at least five, ranging from \$20 to \$60. McLean refuses to tell anything about himself, saying that as he has been caught he is willing to take his punishment with as little trouble as possible to the officers. A second complaint will be filed against McLean.

## GROFF TO RETIRE TOMORROW

Will Formally Transfer Postoffice to Motley H. Flint

Judge L. A. Groff will retire from office tomorrow after a service of four years as postmaster of Los Angeles, and at the same time Motley H. Flint will assume the duties. The change will take place without any flourish of trumpets.

About 10 a. m. the incumbent and his successor will meet for the purpose of transferring the government property involved, the value of which is estimated at \$200,000. The heads of all departments will be present, and will assist in seeing the old postal administration retire, and his successor will assume the reins.

# STORIES OF CIVIC AFFAIRS

Talks With the Principal Officers of City on Questions Connected With Los Angeles' Interests

INTERVIEW III—HARRY F. STAFFORD, CITY ENGINEER

Attention frequently has been called to the fact that with all the corruption that has come to the surface in American cities, the engineering departments are, as a rule, above suspicion, and the public does not directly under their charge. Almost without exception, they are placed upon a pedestal and are to be trusted to do the right thing. In the case of the city of Los Angeles, this is not the case. The department of public works, which is the largest of the city's departments, is the one that has been most corruptly managed. The city engineer, Harry F. Stafford, is the man who has been in charge of this department for the past three years. He is a man of high standing in the engineering profession, and he is a man who has been in the city of Los Angeles for a long time. He is a man who has been in the city of Los Angeles for a long time. He is a man who has been in the city of Los Angeles for a long time.

As a year to the city. He should appoint a city engineer and a street superintendent, subject again to a confirmation by the council, and these three should constitute the board of public works. This board would be in session for an hour or two every day, planning and working out improvements in consistent shape, and its head could be seen at any time by citizens who came to the city hall to take up such matters.

"Why, at the present time, I don't know what to do with people who come to complain about the work that is done on their streets. I turn them over to the street superintendent, perhaps, or advise them to go to the council. I am all of us in a combine to frustrate their wishes. As a matter of fact, we are all of us anxious to do the best we can for them, but there is no definite authority resting anywhere."

"What relation does the building system have to the city? It is a year to the city. He should appoint a city engineer and a street superintendent, subject again to a confirmation by the council, and these three should constitute the board of public works. This board would be in session for an hour or two every day, planning and working out improvements in consistent shape, and its head could be seen at any time by citizens who came to the city hall to take up such matters."

"The system, hopelessly wrong. You consider, Mr. Stafford, the city engineer, Harry F. Stafford, is the man who has been in charge of this department for the past three years. He is a man of high standing in the engineering profession, and he is a man who has been in the city of Los Angeles for a long time. He is a man who has been in the city of Los Angeles for a long time. He is a man who has been in the city of Los Angeles for a long time."

"The system, hopelessly wrong. You consider, Mr. Stafford, the city engineer, Harry F. Stafford, is the man who has been in charge of this department for the past three years. FINE FIFTY DOLLARS FOR ABDUCTING BABY

Makes Explanation to the Effect He Had Been Told the Child Was Dying

My idea of civil service is to get a first-class man at the head of the department, let him hold his place permanently and make him responsible for the efficiency of the men in his employ. Then you will get the best results.

"I suppose not. The present system of civil service would certainly be preferable—at least with modifications—to the old method of political pull."

"Your office has been considerably behind with its work, Mr. Stafford, is it catching up now?"

"We were at one time two years behind now we are only one year in arrears. There were two reasons for the delay. One is the vast increase in the amount of work done. Take one item, that of improving of streets; in the two years, 1900 and 1901, we did seven miles of street work. In the two years, 1902 and 1903, we did sixty miles, an increase of more than 250 per cent."

"The second difficulty lay in the great amount of private and corporate work under way which called for the services of engineers, so that it was impossible to get men. Conditions are more favorable now, and we hope before long to catch up with our work."

"But is that plan feasible under our system of politics?"

"I think it is a decided mistake. We should use as soon as possible the construction of the drain. The work never again can be done so cheaply as now, for the difficulty of getting under the streets with so large a construction increases as the network of pipes becomes more complicated."

"Now the electric road has been completed. The work has been done so cheaply as now, for the difficulty of getting under the streets with so large a construction increases as the network of pipes becomes more complicated."

## A Lesson in Purity

How few people realize what absolute purity in liquors means. It means free from germs. Impurity means bacilli, and in a saccharine product like sweet wines bacilli multiply rapidly.

This is why physicians say, "Get a little pure wine," and it is rapidly becoming second nature for them to add, "at 315 West Fifth Street," as they realize that our name is the best possible guarantee of ABSOLUTE PURITY.

LONG BEACH, Feb. 27.—(Special Correspondence of The Express.)—Proposition to establish a municipal electric lighting plant again is agitating the public mind. A week ago there seemed to be general apathy and a disposition to drop the matter. Now several of the enthusiastic movers in the scheme are urging the council to call an election and let the voters decide whether they will create an additional department of the city government. In all probability the council will take definite action at Monday's session.

Announcement was made that the \$50,000 recently voted for the building of a new hospital for the poor will be formally dedicated to the purpose. The state secretary will be present. F. E. ## PARTY RANKS BROKEN

English Parliament Expected to Be Dissolved Within the Next Six Weeks

## LIBERALS GAINING GROUND

Defeat of Balfour's Government Predicted in the Next General Election

(BY ASSOCIATED PRESS LEASED WIRE.) LONDON, Feb. 27.—There will be a dissolution of parliament within six weeks and if, as it is expected, the liberals are returned to power, King Edward will summon Lord Spencer, liberal leader in the house of lords, to form a cabinet. His majesty and all prominent politicians are fully aware of the situation created by the irreconcilable cleavage in the unionist ranks by fiscal and other differences and are all preparing for a speedy fall of the government and a consequent general election.

Ever since the beginning of the present session of parliament the government's majorities have dwindled gradually. A majority of fifty-one out of a nominal 120 or thereabouts was all the government could muster after a debate of one week on such an important plank of its policy as the fiscal question. A similar small majority saved the government from defeat on the army question, while Thursday night it could show only the beggarly fourteen majority against an opposition amendment reducing the important supplementary navy vote.

This narrow escape was not very important, because it was somewhat in the nature of a "snatch" vote, but several such incidents make the government's position untenable. Such large numbers of the government's usual supporters have decided not to stand for re-election that they are indifferent as to when the dissolution occurs, and in spite of all the efforts of the whips, it has been found impossible to secure their regular attendance.

On the other hand, the opposition factions have been gradually healing their differences and their constant attacks on the government have shown rapidly increasing strength. The decision of the government against the Irish university bill completed the alienation of the nationalists and John Redmond's followers decided at a meeting yesterday to vote with the liberals to turn out the government at the first opportunity. The withdrawal of the Duke of Devonshire, who was lord president of the council, proved a shattering blow to the already weakened Balfour cabinet.

Those best informed on political matters, including even many persons in close touch with Joseph Chamberlain, anticipate that the liberals will not only win easily at the forthcoming election, but estimate their majority as high as 150. The bye election to fill the seat in parliament from South Birmingham made vacant by the recent death of Joseph Powell Williams, liberal unionist, was held yesterday with the following result: Lord Metzer, unionist, 5,299; H. Halliwell, liberal, 2,222. At the previous election Mr. Williams was unopposed.

## COTTAGE PRAYER MEETINGS

## Many Interdenominational Sessions to Be Held This Evening

Interdenominational prayer meetings, under the direction of the Ministerial union, will be held tonight in different parts of the city. It is expected that those interested will attend the nearest one, irrespective of denominational affiliations. They will be held in the following places: Mrs. Case, 629 Bixel street; Mrs. Rhoads, 235 South Grand avenue; Mrs. Palmistry, 425 East Elmira street; Mrs. Ashport, 1107 West Tenth street; Mrs. Alford, 229 East Twenty-fifth street; Mrs. Jones, 523 Patton street; Mrs. Newby, 2443 Magnolia street; Mrs. Gieseler, 1211 West Eighth street; Mrs. Bowler, 922 South Broadway; Mrs. Robinson, 1747 New Hampshire street; Mrs. Jefferson, 329 East Sixteenth street; Mrs. Stricklin, 813 Linden street; Mrs. Owens, 2816 New Jersey street; Mrs. Moulton, 2022 Atlantic street; Mrs. Fuller, 728 Banning street; Mrs. Prosech, 910 East Thirty-third street; Mrs. Nelson, 267 South Burlington avenue; Mrs. Hayden, West Tenth street and Denver avenue.

## ANIMAL SHOWS ARE COMING

## Norris &amp; Rowe Out of Winter Quarters

Norris & Rowe's shows are out of winter quarters, and the trained animal aggregation is larger now than it ever has been heretofore. The proprietors now boast that the miniature show has become a full-fledged, two-ring circus. Included in the Norris & Rowe list of attractions, soon to visit Los Angeles, are the six marvelous Belfords, famous acrobats; the five La Vans, said to be the most sensational of all aerial gymnasts; Melotte, La Nole and Melotte, premier comedy, high-wire artists; the Gardner family, noted for cleverness on the horizontal bars; the Groh's, five remarkable equilibristes; the three McDonald brothers, trick cyclists; a royal Japanese troupe of eight athletes. In addition there are performing elephants, camels, lions, tigers, hyenas, llamas, buffaloes, kangaroos, ostriches, elk, deer, goats and monkeys; Herbert Rumbley's school of educated seals; Herr Geisler's herd of comedy elephants, quartette of cake-walking horses, the pony ballet, the Roman hippodrome, the new menagerie and ever so many other novelties. Norris & Rowe will exhibit here March 8 to 12, inclusive.

## (BY ASSOCIATED PRESS LEASED WIRE.)

## PORTLAND, Ore., Feb. 27.—At

Mount Tabor, a little town a few miles east of Portland, two houses were destroyed and several other buildings badly damaged by a tornado yesterday. The tornado was accompanied by a hail storm of unusual severity. Fifty feet north of the Starbuck residence, which was completely demolished, was an unoccupied house belonging to William Thomas. Being directly in the path of the tornado, it was demolished as quickly as the other building. Luckily no one was in the building when the storm struck it. The building occupied by the grocery store of W. T. Henton was wrecked and the stock scattered in every direction. No one was injured, though several had narrow escapes.

David's store, just across the street, was damaged to such an extent that the stock practically is ruined. The home of T. H. Starbuck, an elder of the Adventist church, was wrecked by the storm. Starbuck, who was in his bath room at the time, was saved from death by his bath tub, which prevented falling timbers from reaching him. His wife and daughter, who were in the kitchen, were protected in a similar manner by the cook stove.

He was seized by enraged passengers and thrown upon the rails before an approaching train, where the crowd proposed to hold him. In the darkness it is likely he would have been cut to pieces.

## DEATH OF FRANK ELLISON

## Noted New York Broker Succumbs to Pneumonia

NEW YORK, Feb. 27.—Frank Ellison, known as "Burr," a familiar character in this city, is dead from pneumonia. He is said to have been the youngest officer in the union army, having run away from his home in Philadelphia and received a lieutenant's commission at the age of 15. Ellison was once a member of the stock exchange and belonged to the leading clubs. In 1893 he assaulted another broker and was sentenced to five years in the penitentiary. Efforts were made by influential friends to procure his pardon, but it was granted only a few months before the expiration of the sentence.

## WOODMEN'S RECEPTION.

Camps of Los Angeles Join in Honoring Founder of the Order and its Present Head Consul.

Both main floor and gallery of Elks Hall were filled last night with Woodmen of the World, and their lady friends, as they gathered to honor the founder of the order and its present Head Consul, Hon. F. A. Falkenberg.

Mr. Falkenberg has been spending several weeks in Southern California, and will be present and officiate at the all-night session of the camps on Mt. Lowe next month, when a class of from 500 to 600 students will be inducted into the mysteries of woodcraft.

Last evening the six camps of Los Angeles participated in the reception to their Head Consul. There was a most entertaining programme of music, which included a vocal trio, Mrs. Elizabeth K. Wuerker, Mrs. Margaret Le Sage and John Hase Zinck; solo, by Mrs. Le Sage; selection, by the Angelus played by Mrs. Wuerker; farquhar and soprano songs, by Miss Jessie Falkenberg, daughter of the Head Consul; Miss Anna Knudsen who accompanied for the musical programme.

State Senator Fred M. Smith acted as chairman, and a most happy year introduced the founder of the order.

Mr. Falkenberg spoke of the beginning of the Woodmen of the World, fourteen years ago, and of its remarkable growth, and the fact that in the Pacific jurisdiction alone there are now 25,000 members. He detailed the rise of the fraternal insurance societies in the United States since their first organization in this country, only thirty years ago, and stated that only three other orders in the Union outranked the Woodmen of the World in membership.

He declared that the order was founded on the pillars of faith, and that its foundation stones were love, honor and remembrance. "It was this order," said the speaker, "that brought the world together, and that brought three regiments of Woodmen marched to the war in Cuba, to save these men."

"Your insurance will not be canceled, but it will be kept in force until you return from the war."

Mr. Falkenberg paid a glowing tribute to the work being done by the fraternal orders, and declared that the motive power was found in the one word "Love," the greatest power on earth or in our conception of the life beyond the present existence.

After the programme a drill was given by the degree team from Fremont camp, and at its close, many Woodmen

THE DIRECT WIRE TO THE TIMES! NEW ORLEANS, Feb. 26.—[Exclusive Dispatch.] W. H. Moore, president of the National Good Roads Association, with headquarters in St. Louis, left here today, having arranged for a great Southern Good Roads Association meeting, to be held here April 5 and 6. He now goes to California and will reach there next Friday, to arrange two Pacific Coast conventions, one to be held in Los Angeles, the other in San Francisco or Sacramento.

They are intended to crystallize the western good roads movement, and stimulate the sending of hundreds of delegates from the Coast to the national and international convention, to be held in St. Louis from May 16 to 21, during the convention.

## SHOCKED THE COURT.

Justice Leventritt Refuses to Confirm Sale of Salt Plants to International Company.

[BY THE ASSOCIATED PRESS.—A.M.] NEW YORK, Feb. 26.—In the Supreme Court today, Justice Leventritt refused to confirm the sale of the National Salt Company's plants, September last, to the International Salt Company for \$2,150,000, declaring that "the terms of the sale and the manner of the procurement, the method of the sale and the manner of bidding the gross and the patent inadequacy of the price realized, combined to shock the conscience of the court, precluding any affirmative act of approval on its part."

## PERSONAL.

A. Stewart Ingles, a business man of Uniontown, Pa., is in the city.

## MILLIONS GO UP IN SMOKE IN ROCHESTER.

Early Morning Blaze Puts Big Dry Goods Houses Out of Business.

Worst Conflagration in History of Flower City Breaks Out in Bitter Cold Weather, and Help from Buffalo and Syracuse Fails to Prevent Destruction of Skycrapers and Department Stores.

(BY THE ASSOCIATED PRESS—P.M.)

ROCHESTER, Feb. 26.—At sunset tonight, ten engines were pouring streams of water on the ruins of most of the retail dry goods quarter of Rochester. Three of the five department stores of this city were consumed in today's fire, which caused a loss of more than \$3,000,000. The Sibley, Lindsay & Curr Company, the largest retail store in Rochester, was destroyed. Of the loss, \$1,350,000 represents buildings, and the remainder stocks and furnishings.

The burned region lies on the north side of Main street, between St. Paul street and Clinton Avenue north, running from St. Paul street almost the entire length of the block. The fire started in the store of the Rochester Dry Goods Company, and worked west, burning only one store east of this establishment, that of the Walkover Shoe Company, before its progress was checked in this direction. Next was the store of the Beadle & Burt Company, which was destroyed.

GRANITE BUILDING, ROCHESTER.

The fire is reported to have started in the basement of the Rochester Dry Goods Company. A fuse connected with the electrical motor that runs the elevator blew out and the next moment the flames were rushing up the elevator well. Soon the building was wrapped in flames.

The fire spread to the Walkover Shoe Company, just east of the Rochester Dry Goods Company, and this building was entirely gutted. The fire also spread to the rear of the Granite building, on Division street. The Cox building, which fronts St. Paul street on the corner of Division street, caught fire. There were several explosions in this building.

The fire started so early in the morning that very few people were on the street, but by 6 o'clock there were thousands crowding the scene of the disaster. Explosions of dynamite used to check the spread of the flames were supplemented by the thunder of falling walls.

The huge Granite building, belonging to Sibley, Lindsay & Curr Company, the upper stories of which were occupied by hundreds of professional men, lawyers, doctors and business men, was gutted from the basement to the tenth story. The entire tenth floor was taken up with the offices of the Vacuum Oil Company, a branch of the Standard Oil Company.

At 8:40 o'clock there was a tremendous explosion in the basement, where the Sibley Company conducted a large drug department. There had been several previous explosions in the burning buildings. The Granite building was a total loss.

Across St. Paul street, to the west, was another large dry goods store. The efforts of the fire department were centered on the west wall of the Granite building to prevent it falling and spreading the fire on the west side of St. Paul street. Opposite the Granite building is the Chamber of Commerce building, eleven stories high. The building occupied by the Rochester Dry Goods Company, just east of the Granite building, was totally destroyed, with walls falling.

It is estimated that 3500 persons are out of employment as a result of the fire.

NEWPORT NEWS, (Va.) Feb. 26.—The loss in stock was as follows: Sibley, Lindsay & Curr Company, retail, \$350,000; wholesale, \$1,350,000; tenants in Granite building, \$200,000; Beadle & Burt Company, \$250,000; Rochester Dry Goods Company, \$150,000. The smaller losses foot up \$80,000.

AN EARLIER ACCOUNT.

(BY THE ASSOCIATED PRESS—P.M.)

ROCHESTER, Feb. 26.—The worst conflagration in the history of Rochester broke out shortly before five o'clock this morning, in the basement of the Rochester Dry Goods Company's store, at 1516 Main street. The fire, according to the night watchman in the store, Thomas Connors, was discovered soon after it started, but it spread with such rapidity that by the time an alarm was turned in the entire front of the store was one mass of flames. The fire department responded promptly. Assistant Chief Jaynes realized at once the dangerous nature of the fire and turned in a general alarm. By this time the flames had spread to the building occupied by the dry-goods firm of Beadle & Burt Company.

Chief Little arrived on the scene promptly after the general alarm was sounded. He realized that the flames were beyond the control of the local department, and appeals for more fire apparatus were sent to the chiefs of the Buffalo and Syracuse departments. Nearly five hours later, four steamers arrived from Syracuse.

Within an hour after being discovered, the fire had spread to the big Granite building, occupied by the firm of Sibley, Lindsay & Curr Company, and by hundreds of business and professional men. Flames also spread to the buildings in the rear of the Granite block. The extreme cold made fire fighting difficult and hazardous, as the ladders were coated with ice.

The only accident reported was the injury of Assistant Chief Frank A. Jaynes, who was struck on the head by a flying nozzle.

The loss is estimated at between \$3,000,000 and \$5,000,000 most of which fell upon the Sibley, Lindsay & Curr Company, the Beadle & Burt Company, the Rochester Dry Goods Company and the Walkover Shoe Company.

Several engines from the Buffalo fire department arrived at 11 o'clock. At that hour, the fire was still burning fiercely, but Chief Little believed that the flames could be kept under control, as there was no wind. The firemen used dynamite early, but the use of explosives was soon abandoned.

A portion of the Kieley building, occupied by the Beadle & Burt Company, also fell, carrying with it a mass of burning timbers, brick and plaster. Trolley wires broke and eight firemen had narrow escapes from injury. The fire area was guarded by large details of policemen.

IN SEVERELY COLD WEATHER. Had there been even a moderately high wind the firemen say nothing could have prevented a repetition of the Baltimore fire.

At 10:10 the Syracuse fire fighters arrived, having been delayed by the severe cold, which is delaying traffic on all the railroads in this part of the State.

The fire is reported to have started in the basement of the Rochester Dry Goods Company. A fuse connected with the electrical motor that runs the elevator blew out and the next moment the flames were rushing up the elevator well. Soon the building was wrapped in flames.

The fire, according to the night watchman in the store, Thomas Connors, was discovered soon after it started, but it spread with such rapidity that by the time an alarm was turned in the entire front of the store was one mass of flames. The fire department responded promptly. Assistant Chief Jaynes realized at once the dangerous nature of the fire and turned in a general alarm. By this time the flames had spread to the building occupied by the dry-goods firm of Beadle & Burt Company.

Chief Little arrived on the scene promptly after the general alarm was sounded. He realized that the flames were beyond the control of the local department, and appeals for more fire apparatus were sent to the chiefs of the Buffalo and Syracuse departments. Nearly five hours later, four steamers arrived from Syracuse.

Within an hour after being discovered, the fire had spread to the big Granite building, occupied by the firm of Sibley, Lindsay & Curr Company, and by hundreds of business and professional men. Flames also spread to the buildings in the rear of the Granite block. The extreme cold made fire fighting difficult and hazardous, as the ladders were coated with ice.

The only accident reported was the injury of Assistant Chief Frank A. Jaynes, who was struck on the head by a flying nozzle.

## WAR NEWS AFTER MIDNIGHT.

STRATEGISTS SATISFIED.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Feb. 27.—(Exclusive Dispatch.) The Herald's London correspondent says that the strategists apparently are satisfied that the Japanese have landed at Pussiet Bay, and that their object is to either attack Vladivostok or threaten Kirin, Harbin and the Russian man in Berlin scout the report of a landing, pointing out that the garrison at Hunchun is reported to consist of two regiments, and that they would not have fled without firing a shot.

CONFIRMATORY EVIDENCE.

Gen. Plung's report that eleven Japanese warships have been seen off Vladivostok tends to strengthen the reported landing at Pussiet Bay. It is a good harbor, but in winter it freezes for five miles from shore. It is fortified, and formerly, at least, was an important military post, as high as 10,000 men having been kept there during 1904, the year of the Japanese-Chinese war. The fortifications alone call for a good-sized garrison. If the Japanese have landed there, they must be credited with a daring bit of strategy.

VOLUNTEER CREW'S GLORY.

Reports from both Tokio and St. Petersburg indicate that Japanese failed in their attempt to close Port Arthur. The Japanese navy has kept there during the winter. The crew of the Japanese ship, the Kuroki, who were on the ship, are being impossible to decide between the naval men who wished to share in the glory.

RUSSIA DEEPLY AFFECTED.

Solemn religious services participated in by the czar and leading generals show how deeply Russia has been affected by her reverses. The time of Gen. Kuropatkin's departure for Manchuria is made doubtful by conflicting reports. He is said to have demanded that the army in the Far East be increased to 400,000 men.

Korea will aid Japan with 30,000 troops. Korean warriors do not rank very high as fighters.

Again come reports from Nagasaki of transports leading troops for Dalny, or its vicinity.

LANDING NORTH OF CHEFOO.

CHEFOO, Feb. 27.—A number of Japanese sailors have landed thirty miles north of Chefoo. They claim that they are from transports sunk at Port Arthur last Wednesday.

JAPS BOUNCE FRENCH MINISTER.

(BY THE ASSOCIATED PRESS—P.M.) LONDON, Feb. 26.—A report which emanated from St. Petersburg says that the Japanese Minister at Seoul has requested the Korean government to hand the French Minister his passports.

FIRING HEARD AT SEA.

(BY THE ASSOCIATED PRESS—P.M.) ST. PETERSBURG, Feb. 26.—A correspondent of the Associated Press

Fire of unknown origin broke out in the angle steel shed of the Newport News Shipbuilding Company today and destroyed the building, the only frame structure in the shipyard. The loss is \$15,000.

WASHINGTON NOTES.

W. Cameron Forbes Accepts.

WASHINGTON, Feb. 26.—Governor Wright has cabled from Manila that the Philippine Commission will be able to arrange its business so as to permit W. Cameron Forbes to delay his coming to the islands for three or four months. As this will enable Forbes to wind up his business here, and accept the appointment on the commission.

Extradition of a Jap.

WASHINGTON, Feb. 26.—The Japanese government has agreed to surrender a Japanese subject to the United States under extradition proceedings. Sumaro Adachi, a Japanese living in Honolulu, was charged there with perpetrating a murder in connection with the trial of cases involving alleged importation of Japanese women for immoral purposes. He fled to Japan. The State Department has just been informed that the Japanese government has granted in request the man's extradition, and has surrendered him to an agent for Hawaii, who will sail with him for Honolulu from Yokohama on the Siberia today.

Dewey's Prize Property.

WASHINGTON, Feb. 26.—James G. Dewey, auditor of the District Supreme Court, today filed his report on the

telegraphs from Port Arthur, under date of February 26, as follows: "Last night, about 10 o'clock, Japanese torpedo boats again unsuccessfully attempted to approach Port Arthur. Firing was heard at sea after midnight, and it is presumed that Russian torpedo boats or torpedo-boat destroyers had attacked the Japanese." No details of the result are at hand.

Continuing, the correspondent says the Novsky published a condemnation of the United States for proposing the neutralization of China.

SCOUTS SIGHT EACH OTHER.

(BY THE ASSOCIATED PRESS—P.M.) LONDON, Feb. 27.—"Russian and Japanese scouts sighted each other Thursday morning at Sukchen, twenty-five miles north of Ping Yang, Korea, but did not come in contact." The Tokyo correspondent of the Times. "The Russians are now moving southward of the Tumen River, where the roads are extremely bad. The changes in the Korean Cabinet have brought into power the partisans of the United States and Japan. The Russian soldiers have seized the premises of an American oil company at Ussan, north of Ping Yang."

AMERICANS MUST LEAVE.

(BY THE ASSOCIATED PRESS—P.M.) YINOTHE, (Manchuria), Feb. 24.—An American refugee from Harbin says the authorities there have discriminated in the expulsion of American, Japanese and British subjects. Persons of other nationalities have not been molested. This is virtually the situation at other places and especially at Port Arthur, where nearly all the Germans are officers. The few American and British subjects at Port Arthur have been required to sign an agreement to leave within a given time.

The rumors of numerous engagements on the Yalu river are discredited here. It is said that Russia has no definite plan of campaign and that she does not intend to move before the reorganization of the Manchurian regiments, which cannot be completed here or here weeks or a month. The expectation that the powers will interfere to secure the protection of Newchwang has almost been abandoned.

UNDER MARTIAL LAW.

(BY THE ASSOCIATED PRESS—P.M.) ST. PETERSBURG, Feb. 27.—At the first session of the committee appointed to consider measures for strengthening the fleet, the Chairman, Grand Duke Michael, heir apparent, subscribed \$50,000. Port Arthur, Vladivostok, Blagoveshensk, all trans-Balkas and the Manchurian Railway have been declared under martial law.

amount and value of the prize property in the case of Admiral Dewey against the Don Juan de Austria and other vessels captured at Manila Bay, May 1, 1898. The auditor, to whom the question was referred by the court, has reported the value of the property subject to the share-claimant as prices aggregate \$29,932.

AT NEW YORK HOTELS.

NEW YORK, Feb. 26.—(Exclusive Dispatch.) At the Park Avenue, F. A. Swan.

Against Mineral Protestants.

STOCKTON, Feb. 26.—The Commissioner of the General Land Office, by letter of February 20, has affirmed the decision of the registrar and re-ward of the local land office, awarding certain lands in townships 3 and 4 north, range 9 east, near Wallace and Comanche counties, to the Central Pacific Railroad Company, successor to the Western Pacific Railroad Company. These lands were contested by George H. Shuren et al, to be mineral in character, he contending that as much of the land as was in the Central Pacific. The ruling, however, is against the mineral protestants, with the privilege of appeal.

Theater of War.

The colored map, with statistics on opposite page, which appeared in the Sunday Times, February 22, has been printed separately in color, on heavy paper, for preservation and use by the public. It is available at all book stores and at The Times office at 100, Strand, London.
